

Charming and family-friendly

Lister Meile and Podbielskistrasse are the two main arteries of the List district. Families appreciate the quiet, middle-class atmosphere and the numerous shopping opportunities that are to be found even in the side streets. This is where people meet for a glass of good wine, to go to the theatre (Theater in der List e.V.), attend a reading or a concert at the Pavillon.

Shopping is the main topic in the List district: whether Lister Meile or around Wedekindplatz, everywhere you go you will see people with overflowing shopping bags. Shopping can be very tiring, so people in this part of the city have to keep themselves fit and many going jogging in Eilenriede Forest in the early morning.

Eilenriede

Europe's biggest urban forest is right in the heart of Hannover. Whether you prefer jogging, inline skating or walking, you will find plenty of room to do so in the 1,600 acres of Eilenriede. And if you're lucky, you may even see deer, foxes or bats.
