Hannover – transportation hub in Germany

Hannover Airport

Hannover – all roads lead to Hannover

Whether you come by road, by ICE high-speed train or by air – Hannover is one of the most important hubs of transportation in Germany and the whole of Europe – the place where the whole world meets.

Hannover's outstanding transportation infrastructure makes it both a popular destination in itself, and also a starting point for many attractive excursions into the surrounding region: to the Lüneburg Heath, for example, or the historic towns and cities of Lower Saxony such as Hildesheim, Hamelin or Celle.

Thanks to Hannover's central location, the great metropolises of Berlin and Hamburg can also be reached in a very short time.

By train:

Hannover is the most important railway hub in Germany: You reach Hannover with fast InterCityExpress train connections from Hamburg in just over an hour, the journey from Berlin to Hannover takes about 1.5 hours. From the Ruhr area, you are in Hannover within 2.5 hours. Even from Munich you reach Hannover in just 4.5 hours. In addition, many international long distance lines run via Hannover, so the city is also easy to reach from abroad.

Hannover is also within easy reach from all destinations in Lower Saxony in a short time by public metropolitan and suburban commuter railway trains. The Hannover Region is fully developed by new light rail traffic lines which run far beyond the city limits.

Hannover Airport – your holiday airport in Northern Germany

Hannover Airport is one of the leading airports in Northern Germany with more than 6 million passengers per year. The air traffic hubs Frankfurt/Main, Munich, London and Amsterdam as well as the cities of Paris, Zurich and Copenhagen are only a few examples for the excellent direct connections within Europe. Further highlights are many connections to leisure travel destinations around the Mediterranean Sea e.g. in Turkey, Italy and Spain as well as several direct connections within the CIS states. Thanks to its central location Hannover Airport is the ideal starting point for a journey through Northern Germany. The airport has a direct connection to the motorways A7 (Hamburg-Kassel) and A2 (Berlin-Dortmund) as well as good railway relations via Hannover main station (approx. 17 minutes) to the high speed railway network of Deutsche Bahn. For more information go to www.hannover-airport.de.

Exhibition „Welt der Luftfahrt“

By car:

Hannover lies on a major German motorway intersection. The A2 motorway links Hannover to North Rhine-Westphalia and Berlin. The A7 motorway opens up the north-south axis for all people travelling from the direction of Hamburg or Munich.

Hannover's city centre is a clean air zone. You can only drive your car within the inner city ring if your vehicle has a clean air sticker on the windscreen. Coaches do not need a clean air sticker.

Relax at the banks of River Leine

Highlights

In the heart of the Old Town

Here you can breathe the city's history: the historic timber-framed buildings of the Old Town are among the very special sights of the city centre. The imposing Market Church and the Old Town Hall are the most southerly examples of the redbrick Gothic style which is typical of northern Germany. Wander through picturesque narrow streets and discover exclusive boutiques and inviting cafés and restaurants. Among the most pleasant squares in the Old Town is Ballhofplatz, where there is also a theatre, and where openair parties take place in the summer. A few yards further on you can relax in secluded spots on the banks of the River Leine. On Saturdays, Germany's oldest flea market takes place here – an Eldorado for lovers of art and curiosities, set against a historic backdrop.

Maschsee Lake

Around Maschsee Lake

A maritime paradise right in the city centre! The Maschsee Lake offers the people of Hannover a recreational area in the heart of the city, both on the water and all around it: for yachting, canoeing and pedal-boating, for joggers, skaters and strollers. Right opposite, you can stroll through the idyllic Maschpark to reach the magnificent New Town Hall where four 3D models impressively show the eventful history of Hannover. Travelling up to the 97-metre-high Town Hall dome in the unique curving lift is an experience in itself: from the top, you can see as far as the Deister Hills. And every visitor who is not already convinced of the fact can clearly see from here that Hannover is Germany's greenest city!

Graffiti art in the city's districts

Art in public places

At the beginning of the 1970s, an art project was launched on the streets of Hannover that attracted widespread attention. Since then, the townscape has been uniquely characterised by the works of art that are to be seen there, and which in the meantime have come to number 170, including a series of specially designed tram and bus stops. Buxom curves, luminous colours: the three Nanas on the Leibnizufer have become one of Hannover's most popular landmarks since 1974. They were not always so celebrated: many Hannoverians took a distinct dislike to the voluminous sculptures created by the artist Niki de Saint Phalle. This grass roots protest gave rise to intense debate about art in public spaces – with a happy end: Hannoverians now consider the "buxom girls" to be part of the family.

Colorful districts: In Hannover's city districts you can discover colourful graffiti art – take a look at our „Culture for free“ tours!

Animal attractions

Right in the heart of the city of Hannover you will find an unique paradise for more than 2,000 animals. A discovery trail leads you around the world through lovingly shaped thematic worlds. Shows and commented feedings add to this great experience.

SEA LIFE Hannover, the first tropical SEA LIFE aquarium in Germany, will take you on a fascinating, breathtaking journey – from the banks of the River Leine across the Caribbean Sea into the Amazon rainforest. Discover an underwater kingdom alive with shimmering colours – the world of tortoises, sea horses, sharks, rays & others!

Royal Gardens of Herrenhausen | Great Garden

Royal Gardens of Herrenhausen

Supreme garden art & culture

Hannover has a most extraordinary woman to thank for this masterpiece of baroque garden art: Kurfürstin Sophie von der Pfalz. Inspired by the sun king Louis XIV, she had the Great Garden laid out at the end of the 17th century in the French style, and it became her life's work. Today, around half a million visitors a year enjoy the flair of this baroque garden, which can rightly claim to be one of the best preserved in the whole of Europe. The Great Garden now also boasts a new top attraction since 2013: the new Herrenhausen Castle Museum – a building belonging to the state capital Hannover and funded by the State of Niedersachsen – which invites visitors to enjoy in a very entertaining way the enormous diversity of the castles and gardens in the fascinating Herrenhausen ensemble.

The Royal Gardens of Herrenhausen are also famous for their very diverse programme of events, such as the International Fireworks Competition, the "Kunsthfestspiele Herrenhausen" music and arts festival, and many other top quality concerts, musicals and dance performances.

Come along and see the magic for yourself! The Berggarten next door is also very well worth a visit – this outstanding botanical garden boasts around 12,000 different species of plants. Its glass houses are open throughout the year displaying up to 800 flowering orchids, rare tropical plants, and a wide range of cactuses and succulents amongst other botanical treasures.

Royal Gardens of Herrenhausen | Berggarten

Opening times

The Great Garden and the Berggarten botanical gardens open throughout the year at 09:00.

The museum opens daily in the summer season from 11:00 to 18:00.

In the winter season (1 November to 31 March) the museum is open from Thursday to Sunday from 11:00 to 16:00.

Maschsee Lake Festival

Always something happening!

Entertaining Herrenhausen

At the International Firework Competition the best pyrotechnists from all over the world compete against each other with a combination of music, drama and fireworks accompanied by a supporting programme of cabaret and music. "KunstFestSpiele" brings a unique festival delight to Hannover: international artist boast concerts, musical theatre, art installations and film music in the summerly Herrenhausen Gardens. After dark the Great Garden is festively illuminated, and there is scarcely a visitor able to resist the invitation to enjoy a romantic stroll.

On the stage of the 300 years old Garden Theatre impressive events take place. For several weeks in the summer, it is the "Little Festival in the Great Garden" that is the great hit with the public. More than 100 artists, performing on thirtyfive different stages, provoke merriment and amazement with their impressive acts, all of which display the highest level of artistry.

The Maschsee Lake Festival

Concerts, artistry and culinary specialities: every year since 1986, the people of Hannover have been joined by guests from far away for a gigantic party. With some two million visitors, the Maschsee Lake Festival is one of northern Germany's biggest open-air parties. Right on the banks of the lake, a number of stages offer programmes for every age and every taste. The Mediterranean atmosphere gives wings to the soul – it's difficult to believe that it's all taking place in northern Germany.

Royal Gardens of Herrenhausen | Garden Theatre

Marksmen: quick march!

The biggest marksmen's fair in the world lasts ten days and ten nights. Breathtaking rides will make you "high" in the truest sense of the word, while the drinking of the traditional Hannover tippel "Lüttje Lage" lends a touch of merry and bibulous local colour. The traditional climax is the Grand Parade of the Marksmen, in which some 12,000 people take part: marksmen and women, marching bands, festively decorated floats and horse-drawn carriages process from the New Town Hall to the Schützenplatz fairground – while tens of thousands of people line the route to cheer them on!

Christmas coming

Hannover's Christmas Market diffuses a unique atmosphere throughout the historic Old Town. Glassblowers, potters and candlemakers demonstrate their skill in their respective crafts. Visitors can stroll and browse among no less than 150 stalls, enjoying delicious Christmas treats or simply observing the busy scene. In the historic Christmas village, a medieval town is brought to life again in all its olde-worlde quaintness. The Finnish Christmas Market on Ballhofplatz square exudes a charm all of its own as delicious "flammlachs" – slow-grilled salmon – is prepared on an open fire.

Unforgettable animal encounters

The call of wild – Canada

Along the way to the small picturesque port town, the winding path takes you through old mines, around wolves with amber eyes, safely grazing caribous and bison. This is Yukon Bay, where polar bears play in the waves. And you can see what these majestic animals get up to under water by looking through the huge panorama windows in the "Underwater World": in the green-blue shimmering water, polar bears swim along directly in front of the glass windows, and penguins show off how well they can fly underwater. Grey seals, sealions, and fur seals glide slowly in front of the underwater windows.

Magically Indian

The ruins of a stately palace somewhere in India: overgrown walls, aqueducts and statues appear to have been decaying for generations. Where once mighty maharajas held court, there are now only bathing elephants, enjoying the luxurious palace pool, and the sumptuous kingdom is now ruled by tigers, leopards and holy hanuman langurs. Inquisitive baby elephants, who know more than a trick or two, make sure the elephant family is always up to something new!

Home of endangered species: Afi Mountain

Past the realm of the chimpanzees, through a lush, humid savannah waterfall and mighty baobabs, the path meanders deep into the rainforest. A group of threatened drills lives here in a peaceful neighborhood with lively monkeys. Just a few meters further you are welcomed in a walk-in aviary the polyphonic chirping of colorful parrots and avocets. High up on the mountain the forest thins out and you see the gorilla family. The lively young animals romp about happily the clearing, always under the watchful eyes of the imposing silver back.

The Deister Hills are a hiking paradise

Enjoy a green paradise

The most northerly ridge of Germany's central mountain range lies around 30 kilometres southwest of the state capital Hannover: the Deister. Birdsong, rustling leaves, delightful hiking tracks: nature and culture abound here in and around the largely beech-covered slopes of the Deister reaching up to 405 metres above sea level. The hillside paths offer many glimpses of the Calenberger Land stretching out into the distance below, and the many ridges of the Weserbergland. And picturesque clearings provide romantic settings for a picnic – or enjoy a refreshing stop at one of the many rustic restaurants. The path is also the goal here – as enjoyed throughout the year by hikers, walkers and cyclists.

Attractions for the whole family

Walkers with picnic baskets feel just as much at home here as cyclists – for instance, along the Deisterkreisel route that circles the Deister hills. Each section of the 100 kilometre long circular path can be enjoyed individually, and boast many attractions in their own right: stately homes, beautiful village churches and half-timbered houses stand witness to the centuries-old history. Imposing parks, interesting museums, numerous water mills and old wind mills, as well as the opulent Weser Renaissance architecture, form highlights for the whole family. Barsinghausen and Wennigsen are culturally and historically famous for their notable monasteries. And the area is also dotted with fascinating reminders of the busy coal mining that used to take place here.

Marienburg Castle – a fairytale destination

When King George V of Hannover gave Marienburg Castle to his wife Queen Marie as a gift, he could not have known that one day it would become one of the most impressive and important neo-Gothic architectural monuments in Germany.

The castle in the neo-Gothic style was built between 1858 and 1867. But fate wanted it different: even before the castle was finished, the Prussians forced King George V in exile to Austria. Queen Marie followed her husband one year later – she should never see her castle again.

The reawakened sleeping beauty castle enchants its visitors today with its fairytale appearance with towers and turrets as well as by the almost completely preserved interior.

A varied program

During summer the castle is transformed into an open-air venue in the Hannover region. The event programme starts with the colourful fantasy festival Annotopia - a must see not only for fans of Star Wars or the Middle Ages. In August, the inner courtyard of the castle offers the backdrop for the big stage, on which, in addition to concerts, cabaret, acrobatics and comedy find their place.

The Summer Festival at the end of the summer season is also a highlight like the winter fairy tale that takes place in the Christmas season and brings the fairytale castle rooms back to life again.

Parts of the castle can also be used for private celebrations or professional events.

2 | Offer and contract conclusion

2.1 The travel offers that are presented on the website with the URL <http://www.hannover-tourismus.de> and in catalogues/brochures of HMTG, do not constitute an offer for concluding a contract. The Customer, however, may make a binding offer for the conclusion of a contract to HMTG.

2.2 When using the website with the URL <http://www.hannover-tourismus.de>, the Customer places a binding offer and the contract is concluded in accordance with the following procedure: the Customer chooses the desired travel services and the desired travel period. After clicking the “Details and Enquiries” button, the Customer is requested to enter his or her personal data. By clicking the “Enquiry” or “Make binding booking” button, the Customer makes an offer for concluding a binding contract. The Customer's offer is based on the services associated with the chosen travel as specified on the website with the URL <http://www.hannover-tourismus.de>. Until clicking the “Send” button, the Customer can correct his or her entries at any time by operating the mouse and keyboard in the usual manner. Furthermore, by clicking the back and forward buttons of the browser in use, the Customer can return to the respective previous page of the booking procedure. After clicking the “Send” button, correction of the entries is no longer possible. HMTG can accept the Customer's offer by sending a binding booking confirmation. An automatic response confirming receipt of the booking does not constitute acceptance of the Customer's offer. The contract is thus concluded by means of the Customer's offer and the acceptance of such offer by HMTG.

2.3 Alternatively, the Customer can also make a booking by usual means of correspondence (letter, facsimile, telephone, e-mail). In the event that a booking is made via e-mail, the Customer will receive an electronic confirmation that the booking was received without undue delay. Here, the declaration of acceptance does not require a specific form; oral confirmations and confirmations by telephone are also legally binding for the Customer and for HMTG.

2.4 The text of the contract is saved by HMTG, but is not accessible by the Customer. HMTG therefore recommends that Customers print the booking information for their own file.

2.5 The information specified on the website with the URL <http://www.hannover-tourismus.de> or in the brochures/catalogues of HMTG forms the exclusive basis of the services offered by HMTG. Any information in hotel guides or similar directories that were not published by HMTG are not binding for HMTG and its obligation to perform, unless these specifications were agreed expressly between the Customer and HMTG.

2.6 In the event that HMTG makes a special offer at the Customer's request, then this special offer shall, notwithstanding the above provisions, constitute a binding offer to conclude a contract by HMTG to the Customer. In this case, the contract comes into force without requiring another confirmation by HMTG if the Customer accepts this offer within a period that is likewise specified in the offer without making any entries or changes or amendments and by either an express declaration, a down payment, final payment or by availing him or herself of the travel services.

2.7 If the brochure, the travel documents or any of the other declarations expressly or clearly state third-party services to be brokered, HMTG only acts in the capacity of travel agent. In the case of these brokered travel services, HMTG's contractual liability as agent shall be excluded, unless intent or gross negligence are in evidence, material duties under the travel agent contract are affected or if warranted characteristics are lacking. Here, HMTG is in principle only liable for the agency, but not for the brokered services (see Sections 675, 631 of the German Civil Code (BGB)). This limitation does not apply in cases of injury to travellers' life, limb or health.

2.8 The official languages of the contract are German and English.

3 | No right of withdrawal under distance selling contracts for travel services

The right of withdrawal which consumers are generally entitled to when they conclude distance selling contracts, is, pursuant to Section 312g (2) Sentence 1 No. 9 of the German Civil Code (BGB), not applicable to services offered in the field of leisure activities if the contract provides that such services are rendered on a certain date or within a certain period. Due to the aforementioned statutory provision, the customer therefore has no right of withdrawal with regard to the travel services booked on the website with the URL <http://www.hannover-tourismus.de> or, if applicable, via telephone, letter, facsimile or e-mail, based on offers in brochures/catalogues of HMTG and the corresponding distance selling contract.

4 | Services, changes to services

4.1 The services offered by HMTG are based exclusively on the contents of the booking confirmation in connection with the underlying specifications of the respective package deal and on all the notes and explanations included in the information that forms the basis of the booking. To the extent that the Customer expresses special wishes when making the booking, such special wishes are not binding for HMTG, although HMTG will endeavour to meet these wishes.

4.2 Service providers, in particular companies offering accommodation, are not authorised to make promises or agreements that exceed or contradict the description of the travel or the booking confirmation or change the confirmed content of the travel contract.

4.3 Any material changes or amendments to the services specified in the description or to the travel conditions must be expressly agreed upon with HMTG.

4.4 Changes to or deviations of individual travel services from the contents of the travel contract that are required after conclusion of the contract and are not caused by HMTG in bad faith, are only admissible to the extent that such changes or deviations are not material and do not impact the overall design of the booked package deal. Any warranty claims that might exist shall remain unaffected to the extent that the changed service is defective.

4.5 HMTG shall be obliged to inform its Customers without undue delay on any changes to or deviations of the services. If applicable, HMTG shall offer the Customer a no fee rebooking or cancellation.

5 | Down payment/final payment

5.1 The Customer is obliged to pay the agreed price for the booked travel services. All prices include the statutory VAT of the Federal Republic of Germany.

5.2 A down payment amounting to 10% of the total price shall be due upon contract conclusion against handover of a confirmation and a guarantee certificate. The down payment shall be offset against the price of the travel package.

5.3 The final payment shall be due no later than four (4) weeks before commencement of travel, provided the guarantee certificate has been handed over and unless another payment date was agreed in individual cases. In the event of bookings at short notice that are made later than four (4) weeks before commencement of travel, the total travel price is payable in one sum immediately. Payment is also possible via PayPal or credit card (Visa or MasterCard), insofar as not stated otherwise in the booking instructions.

5.4 The obligation to hand over a guarantee certificate does not apply if

- a) the travel has a duration of no more than 24 hours, does not include overnight stay and the price of the travel package does not exceed EUR 50.00 per person.
- b) the agreed travel services do not include transport from or to the travel destination or if it was agreed that the entire price of the travel package is only payable to HMTG or the accommodation after the travel or the end of the stay.

5.5 Provided that HMTG is prepared and able to render the contractually agreed services and the Customer fails to make the down payment or final payment or fails to make these payments in full at the agreed due dates, without there being a contractual or statutory right of retention, HMTG shall be entitled to withdraw from the contract after sending a reminder and setting a period for payment and to claim compensation from the Customer in the amount of the corresponding cancellation fee in accordance with item 8 of these GTC.

6 | Liability for defects

6.1 HMTG shall be liable for travel defects in accordance with the statutory provisions.

6.2 The tour representative is not entitled to recognise any claims asserted by the Customer on the basis of warranty for defects.

6.3 HMTG does not give the Customer any guarantees as per the legal definition.

6.4 Claims due to defects come under the statute of limitations after one year, starting from the date on which the travel was scheduled to end as per the contract.

6.5 Item 7 of these GTC shall apply to claims for damages due to defect die HMTG verpflichtet, bei den Leistungsträgern die Erstattung ersparter Aufwendungen sowie erzielter Erlöse aus der Verwertung der nicht in Anspruch genommenen Leistungen zu erreichen. Dieses gilt nicht, wenn völlig unerhebliche Leistungen betroffen sind oder wenn einer Erstattung gesetzliche oder behördliche Bestimmungen entgegenstehen.

7 | Liability for damage

7.1 The liability of HMTG for breach of contractual duties and tort shall be limited to intent and gross negligence. This does not apply to injury to life, limb or health of the traveller(s) and claims due to breach of material duties, i.e. duties that are based on the nature of the contract and duties, the violation of which endangers reaching the purpose of the contract. In this respect, HMTG shall be liable for every degree of fault.

7.2 To the extent that HMTG is liable for other damage due to the travel contract, the liability shall be limited to three times the price of the travel package. This limitation of liability shall apply even if the damage occurrence was caused by the fault of a service provider.

7.3 The contractual liability of HMTG shall be excluded entirely or limited to the extent that the liability of a service provider is likewise excluded or limited due to international treaties or statutory regulations that are based on such treaties that are applicable to the services to be rendered by such service provider.

7.4 HMTG shall be liable for claims for compensation of property damages based on tort that were not caused by intent or gross negligence up to an amount of EUR 4,100.00 per Customer and travel, or up to three times the amount of the price of the travel package if this exceeds EUR 4,100.00.

7.5 To the extent that liability for damage that is not based on injury to life, limb or health of the Customer is not excluded for ordinary negligence, such claims shall come under the statute of limitations after one year, starting from the date the claim came into existence.

8 | Withdrawal by the Customer/cancellation

8.1 The Customer can withdraw from the contract at any time before commencement of travel by means of written declaration.

8.2 If the Customer withdraws from the contract, HMTG may request appropriate compensation for the preparation of the travel and expenses thus incurred. The cancellation compensation amounts to:

- up to the 31st day before commencement of travel 10%
- as from the 30th until the 21st day before commencement of travel 20%
- as from the 20th until the 12th day before commencement of travel 40%
- as from the 11th until the 3rd day before commencement of travel 60%
- as from the 3rd day before commencement of travel and failure to commence the travel 90% of the price of the travel package.

The Customer is free to provide evidence that HMTG did not suffer any or a lower damage.

8.3 Notwithstanding the above lump-sum compensations, HMTG reserves the right to demand higher, specific compensation of damages. In this case, HMTG shall be obliged to specify the exact amount of the requested compensation and evidence thereof, thereby accounting for any saved expenses and a potential other use of the travel services.

8.4 In the event that the Customer wishes to make modifications or change the booking after conclusion of the contract with respect to the travel dates, accommodation, type of board or other services, HMTG may request a lump-sum handling fee in the amount of EUR 15.00 if the modifications or booking changes are made, provided that HMTG does not provide evidence of a higher compensation request based on the respective information by the Customer, the amount of which is determined on the basis of the price of the travel package less the value of the expenses saved by HMTG and on the basis of the amount that HMTG can generate by using the travel services differently. The Customer only has a legal claim to the desired modifications or booking changes being carried out to the extent that the realisation is actually possible. Customers shall declare their wish to make modifications or change bookings by no later than the 31st day before commencement of travel. After this time, modifications and changes to bookings are only possible by withdrawal from the travel contract and rebooking in accordance with the cancellation provisions stated above. This does not apply to booking changes that incur only minor costs.

8.5 In the event of withdrawal and changes to bookings, any cost incurred in returning or changing booked admission tickets shall be paid separately together with the handling fee or cancellation compensation as per item 8.4, unless HMTG succeeds in using the tickets in another way.

8.6 Until commencement of travel the Customer may be replaced with a third party, provided that such third party meets the specific travel requirements and his or her participation does not conflict with statutory regulations or official orders and provided that we do not object to such participation for the aforementioned reasons. The Customer and the third party shall be jointly liable vis-à-vis HMTG for the price of the travel package. The Customer and the third party shall further be jointly liable vis-à-vis HMTG for any additional cost incurred by the third party's participation.

8.7 In the event that a travel is discontinued due to circumstances that lie within the responsibility of the Customer (e.g. illness), HMTG shall be obliged to achieve that service providers reimburse saved expenses and any proceeds generated from the utilisation of the services that were not used by the Customer. This shall not apply, if entirely immaterial services are concerned of if reimbursement conflicts with statutory provisions or provisions by the authorities.

9 | Withdrawal of travel organiser because the minimum number of participants was not reached

9.1 HMTG shall be entitled to withdraw from the contract if the minimum number of participants as specified in the offer or travel confirmation is not reached. HMTG shall declare its withdrawal to the Customer before the remainder of the travel price falls due, but no later than the 14th day before the agreed commencement of travel. If it becomes apparent at an earlier date that the minimum number of participants cannot be reached, HMTG shall exercise its right of withdrawal without undue delay.

9.2 The Customer shall receive repayments of the price of the travel package already paid, unless he or she exercises his or her right to book another travel from the offering of HMTG with at least equal value.

10 | Note on data protection

10.1 The HMTG collects data on customers/guests within the context of contact processing. In so doing HMTG acts in compliance with the provisions of the German Data Protection Act BDSG and the German Telemedia Act.

10.2 The HMTG stores the following data whenever its website is accessed: name of accessed web page, file, date/time, data volume transferred, report on successful access, type of browser/version, operating system, previously visited page and IP address. The HMTG uses this data for statistical purposes in providing its offer.

10.3 The data transmitted by the customer is stored for the purpose of processing the enquiry or in the case of tourism bookings, to process the order/contract and data is sent to the service provider for the purpose of processing the booking and order/contract processing (e.g. because of payment/guarantee/contact) and is stored for this purpose.

10.4 If the customer leaves any comments or other contributions on the website, the IP address is stored. This has the purpose of making identification of the responsible party easier in the case of possible illegal comments/contributions by third parties. The HMTG reserves the right to hide or delete any improper, unjustified, insulting or discriminatory comments.

10.5 If the customer has made personal data available to HMTG this data will be used for the purpose of answering enquiries or processing contracts and will only be transferred to third parties or otherwise forwarded if this is necessary for the purpose of contract processing. HMTG would also like to provide customers with written information in the future about current offers insofar as it is not apparent to HMTG that the customer does not wish this to happen. If the customer does not wish to receive such information, the customer may advise HMTG accordingly.

10.6 The online transfer of customer data takes place using SSL encoding. This ensures that customer data cannot be accessed by unauthorised third parties during transmission.

10.7 The HMTG is entitled at all times to contact the customer in response to service provider reports in order to check correctness of data.

10.8 Customer has the right to revoke the consent granted for the storage of personal data with future effect. The deletion of the stored personal data takes place if the customer revokes the consent to storage, if knowledge of such data is no longer necessary to fulfil the purpose intended for the storage of the data or if the storage of personal data is no longer permitted for other legal reasons. Data for accounting purposes and bookkeeping purposes are not affected by the request for deletion.

10.9 Upon written request HMTG shall inform customer and/or guest about personal data stored. The request should be addressed to: Hannover Marketing & Tourismus GmbH, Vahrenwalder Str. 7, 30165 Hannover

11 | Termination due to force majeure and for reasons based on behaviour

11.1 In the event that the travel is hampered, endangered or impaired significantly due to reasons of force majeure that were not foreseeable upon contract conclusion, the travel contract may be terminated by either party. Section 651j (2) of the German Civil Code (BGB) shall apply with regard to restitution.

11.2 HMTG is entitled to terminate the travel contract without observing a notice period if the Customer disturbs permanently despite a warning by HMTG or if the Customer behaves contrary to the contract to such an extent that the immediate annulment of the travel contract is justified. In case of such a termination, HMTG is still entitled to receive the price of the travel package; HMTG must, however, offset the value of the saved expenses and the advantages that were obtained from using the services that the Customer did not use otherwise, including any amounts credited to the Customer by the service providers.

12 | Required form of declarations

Legally material declarations to be made by the Customer vis-à-vis HMTG or third parties must generally be made in writing, unless otherwise agreed or otherwise stipulated in these GTC.

13 | Place of performance – choice of law – place of jurisdiction

13.1 Unless otherwise provided for in the contract, the place of performance and payment shall be the registered office of HMTG. The statutory regulations regarding place of jurisdiction shall remain unaffected, unless the special provision in item 12.3 stipulates otherwise.

13.2 Only the laws of the Federal Republic of Germany are applicable. If the customer is a consumer, the mandatory provisions of the state where that customer has his or her usual abode remain unaffected thereby.

13.3 The court with competence for the registered office of HMTG shall be the exclusive place of jurisdiction for contracts with merchants, legal entities under public law and public special funds.

13.4 The remaining provisions of the contract shall not be affected in the event that individual provisions of this contract are invalid or conflict with legal provisions. The invalid provision shall be replaced in mutual agreement by the contractual parties with a legally valid provision that is as close as possible to the commercial intention and purpose of the invalid provision. The above provision shall apply correspondingly to loopholes. The German version of these GTC shall prevail.
